I consider myself to be a well-motivated, enthusiastic and driven individual. I graduated from Sussex University with a Bachelor degree in 2002 and an American Express-sponsored Masters Degree in 2006. I have been working as a Project Manager since 2003 with American Express and in March 2008 was promoted as a Senior Project Manager with the same Business-to-Business team.

In March 2007, I undertook a 3-months secondment on-site with the AXP-Partner Bank in Greece working on enhancements on their Loyalty Platform. In September 2008, I worked for 2-months on-site with the AXP-Partner Bank in Latvia working on a significant business initiative.

My aspiration is to progress successfully as a Best-In-Class Project Manager in the servicing arena.
